Are you registered to vote?

The right to vote is one of the most important privileges of being a U.S. citizen. However, only 61% of people older than age 18 voted during the 2004 presidential election and only 72% of the eligible population was registered to vote, according to the Office of Election Administration. To register to vote, contact your local county election official or register to vote online at www.cuna.org/election. This site allows you to register to vote or request an early or absentee ballot in a quick and easy-to-use way.
