

Part 745—Share Insurance and Appendix

Subpart A—Clarification and Definition of Account Insurance Coverage

§ 745.0 Scope.

The regulation and appendix contained in this Part describe the insurance coverage of various types of member accounts. In general, all types of member share accounts received by the credit union in its usual course of business, including regular shares, share certificates, and share draft accounts, represent equity and are insured. For the purposes of applying the rules in this Part, it is presumed that the owner of funds in an account is an insured credit union member or otherwise eligible to maintain an insured account in a credit union. These rules do not extend insurance coverage to persons not entitled to maintain an insured account or to account relationships that have not been approved by the Board as an insured account. Where there are multiple owners of a single account, generally only that part which is allocable to the member(s) is insured.

§ 745.1 Definitions.

- (a) The terms “account” or “accounts” as used in this Part mean share, share certificate or share draft accounts (or their equivalent under state law, as determined by the Board in the case of insured state credit unions) of a member (which includes other credit unions, public units and non-members where permitted under the Act) in a credit union of a type approved by the Board which evidences money or its equivalent received or held by a credit union in the usual course of business and for which it has given or is obligated to give credit to the account of the member.
- (b) The terms “member” or “members” as used in this Part mean those persons enumerated in the credit union’s field of membership who have been elected to membership in accordance with the Act or state law in the case of state credit unions. It also includes those non-members permitted under the Act to maintain accounts in an insured credit union, including non-member credit unions and non-member public units and political subdivisions.
- (c) The term “public unit” means the United States, any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Panama Canal Zone, any territory or possession of the United States, any county, municipality, or political subdivision thereof, or any Indian tribe as defined in Section 3(c) of the Indian Financing Act of 1974.
- (d) The term “political subdivision” includes any subdivision of a public unit, as defined in (c) above, or any principal department of such public unit,
 - (1) the creation of which subdivision or department has been expressly authorized by state statute,
 - (2) to which some functions of government have been delegated by state statute, and
 - (3) to which funds have been allocated by statute or ordinance for its exclusive use and control. It also includes drainage, irrigation, navigation improvement, levee, sanitary, school or power districts and bridge or port authorities, and other special districts created by state statute or compacts between the states.

Excluded from the term are subordinate or non--autonomous divisions, agencies, or boards within principal departments.

§ 745.2 General Principles Applicable in Determining Insurance of Accounts.

- (a) General: This Part provides for determination by the Board of the amount of members' insured accounts. The rules for determining the insurance coverage of accounts maintained by members in the same or different rights and capacities in the same insured credit union are set forth in the following provisions of this Part. The Appendix provides examples of the application of these rules to various factual situations. While the provisions of this part govern in determining share insurance coverage, to the extent local law enters into a share insurance determination, the local law of the jurisdiction in which the insured credit union's principal office is located will control over the local law of other jurisdictions where the insured credit union has offices or service facilities.
- (b) The regulations in this Part in no way are to be interpreted to authorize any type of account that is not authorized by Federal law or regulation or State law or regulation or by the bylaws of a particular credit union. The purpose is to be as inclusive as possible of all situations.
- (c) Records:
- (1) The account records of the insured credit union shall be conclusive as to the existence of any relationship pursuant to which the funds in the account are deposited and on which a claim for insurance coverage is founded. Examples would be trustee, agent, custodian, or executor. No claim for insurance based on such a relationship will be recognized in the absence of such disclosure.
 - (2) If the account records of an insured credit union disclose the existence of a relationship which may provide a basis for additional insurance, the details of the relationship and the interest of other parties in the account must be ascertainable either from the records of the credit union or the records of the member maintained in good faith and in the regular course of business.
 - (3) The account records of an insured credit union in connection with a trust account shall disclose the name of both the settlor (grantor) and the trustee of the trust and shall contain an account signature card executed by the trustee.
 - (4) The interests of the co-owners of a joint account shall be deemed equal, unless otherwise stated on the insured credit union's records in the case of a tenancy in common.
- (d) Valuation of trust interests:
- (1) Trust interests in the same trust deposited in the same account will be separately insured if the value of the trust interest is capable of determination, without evaluation of contingencies, except for those covered by the present worth tables and rules of calculation for their use set forth in § 20.2031-7 of the Federal Estate Tax Regulations (26 C.F.R. 20.2031-7).
 - (2) In connection with any trust in which certain trust interests are not capable of evaluation in accordance with the foregoing rule, payment by the Board to the trustee with respect to all such trust interests shall not exceed the basic insured amount of \$100,000.

- (3) Each trust interest in any trust established by two or more settlors shall be deemed to be derived from each settlor pro rata to his contribution to the trust.
- (4) The term “trust interest” means the interest of a beneficiary in an irrevocable express trust, whether created by trust instrument or statute, but does not include any interest retained by the settlor.

§ 745.3 Single Ownership Accounts.

- (a) Funds owned by an individual and deposited in the manner set forth below shall be added together and insured up to \$100,000 in the aggregate.
 - (1) Individual accounts. Funds owned by an individual (or by the husband/wife community of which the individual is a member) and deposited in one or more accounts in the individual’s own name shall be insured up to \$100,000 in the aggregate.
 - (2) Accounts held by agents or nominees. Funds owned by a principal and deposited in one or more accounts in the name or names of agents or nominees shall be added to any individual account of the principal and insured up to \$100,000 in the aggregate.
 - (3) Custodial loan accounts. Loan payments received by a Federal credit union prior to remittance to other parties to whom the loan was sold pursuant to Section 107(13) of the Federal Credit Union Act and Section 701.23 of NCUA’s Regulations shall be considered to be funds owned by the borrower and shall be added to any individual accounts of the borrower and insured up to \$100,000 in the aggregate.
- (b) Funds held by a guardian, custodian, or conservator for the benefit of his ward or for the benefit of a minor under a Uniform Gifts to Minors Act and deposited in one or more accounts in the name of the guardian, custodian, or conservator are insured up to \$100,000 in the aggregate, separately from any other accounts of the guardian, custodian, conservator, ward, or minor.

§ 745.4 Revocable Trust Accounts.

- (a) For purposes of this part, the term “revocable trust account” includes a testamentary account, tentative or “Totten” trust account, “payable-on-death” account, or any similar account which evidences an intention that the funds shall pass on the death of the owner of the funds to a named beneficiary.
- (b) If the named beneficiary of a revocable trust account is a spouse, child, grandchild, parent, brother or sister of the account owner, the account shall be insured up to \$100,000 in the aggregate as to each such beneficiary, separately from any other accounts of the owner or beneficiary, regardless of the membership status of the beneficiary.
- (c) If the named beneficiary of a revocable trust account is other than the spouse, child, grandchild, parent, brother or sister of the account owner, the funds in such account shall be added to any individual accounts of the owner and insured up to \$100,000 in the aggregate.
- (d) For purposes of this section, the term “child” includes the biological, adopted or stepchild of the owner; the term “grandchild” includes the biological, adopted or stepchild of any of the owner’s children; the term “parent” includes the biological,

adoptive or stepparent of the owner; the term “brother” includes a full brother, half brother, brother through adoption or stepbrother; and the term “sister” includes a full sister, half sister, sister through adoption or stepsister.

- (e) Living Trusts. Insurance treatment under this section also applies to revocable trust accounts held in connection with a so-called “living trust,” meaning a formal trust that an owner creates and retains control over during his or her lifetime. If a named beneficiary in a living trust is a qualifying beneficiary under this section, then the share account held in connection with the living trust may be eligible for share insurance under this section, assuming compliance with all the provisions of this part. If the living trust includes a defeating contingency that relates to a beneficiary’s interest in the trust assets, then insurance coverage under this section will not be provided. For purposes of this section, a defeating contingency is defined as a condition that would prevent the beneficiary from acquiring a vested and non-contingent interest in the funds in the share account upon the owner’s death.
- (f) Joint revocable trust accounts. Where an account described in paragraph (a) of this section is established by more than one owner and held for the benefit of others, some or all of whom are within the qualifying degree of kinship, the respective interests of each owner held for the benefit of each qualifying beneficiary will be separately insured up to \$100,000. The interest of each co-owner will be deemed equal unless otherwise stated in the share account records of the federally-insured credit union. Interests held for non-qualifying beneficiaries will be added to the individual accounts of the owners. Where a husband and a wife establish a revocable trust account naming themselves as the sole beneficiaries, the account will not be insured according to the provisions of this section, but will instead be insured in accordance with the joint account provisions of § 745.8.

§ 745.5 Accounts Held by Executors or Administrators.

Funds of a decedent held in the name of the decedent or in the name of the executor or administrator of the decedent’s estate and deposited in one or more accounts shall be insured up to \$100,000 in the aggregate for all such accounts, separately from the individual accounts of the beneficiaries of the estate or of the executor or administrator.

§ 745.6 Accounts Held by a Corporation, Partnership or Unincorporated Association.

Accounts of a corporation, partnership, or unincorporated association engaged in any independent activity shall be insured up to \$100,000 in the aggregate. The account of a corporation, partnership, or unincorporated association not engaged in an independent activity shall be deemed to be owned by the person or persons owning such corporation or comprising such partnership or unincorporated association and, for account insurance purposes, the interest of each person in such an account shall be added to any other account individually owned by such person and insured up to \$100,000 in the aggregate. For purposes of this section, “independent activity” means an activity other than one directed solely at increasing insurance coverage.

§ 745.7 (Reserved)**§ 745.8 Joint Ownership Accounts.**

- (a) Separate insurance coverage. Qualifying joint accounts, whether owned as joint tenants with right of survivorship, as tenants by the entireties, as tenants in common, or by husband and wife as community property, shall be insured separately from accounts individually owned by any of the co-owners. The interest of a co-owner in all qualifying joint accounts shall be added together and the total for that co-owner shall be insured up to \$100,000.
- (b) Qualifying joint accounts. A joint account is a qualifying joint account if each of the co-owners has personally signed a membership or account signature card and has a right of withdrawal on the same basis as the other co-owners. The signature requirement does not apply to share certificates, or to any accounts maintained by an agent, nominee, guardian, custodian or conservator on behalf of two or more persons if the records of the credit union properly reflect that the account is so maintained.
- (c) Failure to qualify. A joint account that does not meet the requirements for a qualifying joint account shall be treated as owned by the named persons as individuals and the actual ownership interest of each such person in such account shall be added to any other accounts individually owned by such person and insured up to \$100,000 in the aggregate. An account will not fail to qualify as a joint account if a joint owner is a minor and applicable state law limits or restricts a minor's withdrawal rights.
- (d) Non-member joint owners. A non-member may become a joint owner with a member on a joint account with right of survivorship. The non-member's interest in such accounts will be insured in the same manner as the member joint-owner's interest.

§ 745.9–1 Trust Accounts.

- (a) For purposes of this section, "trust" refers to an irrevocable trust.
- (b) All trust interests (as defined in subsection 745.2(d)(4)), for the same beneficiary, deposited in an account and established pursuant to valid trust agreements created by the same settlor (grantor) shall be added together and insured up to \$100,000 in the aggregate, separately from other accounts of the trustee of such trust funds or the settlor or beneficiary of such trust arrangements.
- (c) This section applies to trust interests created in Education IRAs established in connection with section 530 of the Internal Revenue Code (26 U.S.C. 530).

§ 745.9–2 IRA/Keogh Accounts.

- (a) The present vested ascertainable interest of a participant or designated beneficiary in a trust or custodial account maintained pursuant to a pension or profit sharing plan described under section 401(d) (Keogh account) or sections 408, 408A or 530 (IRA) of the Internal Revenue Code or similar provisions of law applicable to a U.S. territory or possession, will be insured up to \$100,000 separately from other accounts of the participant or designated beneficiary. For insurance purposes, IRA and Roth IRA accounts will be combined together and insured in the aggregate up to

\$100,000. A Keogh account will be separately insured from an IRA account, Roth IRA account or, where applicable, aggregated IRA and Roth IRA accounts.

§ 745.9–3 Deferred Compensation Accounts.

Funds deposited by an employer pursuant to a deferred compensation plan (including § 401(K) of the Internal Revenue Code) shall be insured up to \$100,000 as to the interest of each plan participant who is a member, separately from other accounts of the participant or employer.

§ 745.10 Public Unit Accounts.

- (a) Public funds invested in Federal credit unions and federally insured state credit unions authorized to accept such investments shall be insured as follows:
- (1) Each official custodian of funds of the United States lawfully investing the same in a federally insured credit union shall be separately insured in the amount of:
 - (i) Up to \$100,000 in the aggregate for all share draft accounts; and
 - (ii) Up to \$100,000 in the aggregate for all share certificate and regular share account;
 - (2) Each official custodian of funds of any state of the United States or any county, municipality, or political subdivision thereof lawfully investing the same in a federally insured credit union in the same state shall be separately insured in the amount of:
 - (i) Up to \$100,000 in the aggregate for all share draft accounts; and
 - (ii) Up to \$100,000 in the aggregate for all share certificate and regular share accounts;
 - (3) Each official custodian of funds of the District of Columbia lawfully investing the same in a federally insured credit union in the District of Columbia will be separately insured in the amount of:
 - (i) Up to \$100,000 in the aggregate for all share draft accounts; and
 - (ii) Up to \$100,000 in the aggregate for all share certificate and regular share accounts;
 - (4) Each official custodian of funds of the Commonwealth of Puerto Rico, the Panama Canal Zone, or any territory or possession of the United States, or any county, municipality, or political subdivision thereof lawfully investing the same in a federally insured credit union in Puerto Rico, the Panama Canal Zone, or any such territory or possession, respectively, will be separately insured in the amount of:
 - (i) Up to \$100,000 in the aggregate for all share draft accounts; and
 - (ii) Up to \$100,000 in the aggregate for all share certificate and regular share accounts;
 - (5) Each official custodian of tribal funds of any Indian tribe (as defined in Section 3(c) of the Indian Financing Act of 1974) or agency thereof lawfully investing the same in a federally insured credit union will be separately insured in the amount of:
 - (i) Up to \$100,000 in the aggregate for all share draft accounts; and
 - (ii) Up to \$100,000 in the aggregate for all share certificate and regular share accounts;

- (b) Each official custodian referred to in subsections (a) (2), (3), and (4) of this section lawfully investing such funds in share accounts in a federally insured credit union outside their respective jurisdictions shall be separately insured up to \$100,000 in the aggregate for all such accounts regardless of whether they are share draft, share certificate or regular share accounts.
- (c) For purposes of this section, if the same person is an official custodian of more than one public unit, he shall be separately insured with respect to the public funds held by him for each such unit, but he shall not be separately insured with respect to all public funds of the same public unit by virtue of holding different offices in such unit or by holding such funds for different purposes. Where an officer, agent or employee of a public unit has custody of certain funds which by law or under a bond indenture are required to be set aside to discharge a debt owed to the holders of notes or bonds issued by the public unit, any investment of such funds in an account in a federally-insured credit union will be deemed to be a share account established by a trustee of trust funds of which the noteholders or bondholders are pro rata beneficiaries, and the beneficial interest of each noteholder or bondholder in the share account will be separately insured up to \$100,000.
- (d) For purposes of this section, “lawfully investing” means pursuant to the statutory or regulatory authority of the custodian or public unit.

§ 745.11 Accounts Evidenced by Negotiable Instruments.

If any insured account obligation of a credit union is evidenced by a negotiable certificate account, negotiable draft, negotiable cashier’s or officer’s check, negotiable certified check, or negotiable traveler’s check or letter of credit, the owner of such account obligation will be recognized for all purposes of a claim for insured accounts to the same extent as if his name and interest were disclosed on the records of the credit union provided the instrument was in fact negotiated to such owner prior to the date of the closing of the credit union. Affirmative proof of such negotiation must be offered in all cases to substantiate the claim.

§ 745.12 Account Obligations for Payment of Items Forwarded for Collection by Depository Institution Acting as Agent.

Where a closed credit union has become obligated for the payment of items forwarded for collection by a depository institution acting solely as agent, the owner of such items will be recognized for all purposes of a claim for insured accounts to the same extent as if his name and interest were disclosed on the records of the credit union when such claim for insured accounts, if otherwise payable, has been established by the execution and delivery of prescribed forms. Such depository institution forwarding such items for the owners thereof will be recognized as agent for such owners for the purpose of making an assignment of the rights of such owners against the closed insured credit union to the Board and for the purpose of receiving payment on behalf of such owners.

§ 745.13 Notification to Members/ Shareholders.

Each insured credit union shall provide notice to its members concerning NCUA insurance coverage of member accounts. This may be accomplished by placing either a

copy of Part 745 of these rules, the Appendix, or one or more copies of the NCUA brochure “Your Insured Funds” in each branch office and main office of the credit union. Copies of these materials shall also be made available to members upon request. For purposes of this section, an automated teller machine or point of sale terminal is not a branch office.

Appendix to Part 745—Examples of Insurance Coverage Afforded Accounts in Credit Unions Insured by the National Share Insurance Fund.

What is the Purpose of this Appendix?

The following examples illustrate insurance coverage on accounts maintained in the same federally insured credit union. They are intended to cover various types of ownership interests and combinations of accounts which may occur in connection with funds invested in insured credit unions. These examples interpret the rules for insurance of accounts contained in 12 C.F.R. Part 745.

The examples, as well as the rules which they interpret, are predicated upon the assumption that, (1) invested funds are actually owned in the manner indicated on the credit union's records and (2) the owner of funds in an account is a credit union member or otherwise eligible to maintain an insured account in a credit union. If available evidence shows that ownership is different from that on the institution's records, the National Credit Union Share Insurance Fund may pay claims for insured accounts on the basis of actual rather than ostensible ownership. Further, the examples and the rules which they interpret do not extend insurance coverage to persons otherwise not entitled to maintain an insured account or to account relationships that have not been approved by the Board as an insured account.

A. How are Single Ownership Accounts Insured?

All funds owned by an individual member (or, in a community property state, by the husband/wife community of which the individual is a member) and invested in one or more individual accounts are added together and insured to the \$100,000 maximum. This is true whether the accounts are maintained in the name of the individual member owning the funds, in the name of the member's agent or nominee, or in a custodial loan account on behalf of the member as a borrower. (§§ 745.3(a)(1), (2) and (3).) All such accounts are added together and insured as one individual account. Funds held in one or more accounts in the name of a guardian, custodian, or conservator for the benefit of a ward or minor are added together and insured up to \$100,000. However, such account or accounts will not be added to any other individual accounts of the guardian, custodian, conservator, ward, or minor for purposes of determining insurance coverage. (§ 745.3(b).)

Example 1

Question: Members A and B, husband and wife, each maintain an individual account containing \$100,000. In addition, they hold a joint account containing \$100,000. What is the insurance coverage?

Answer: Each account is separately insured up to \$100,000 for a total coverage of \$300,000. The coverage would be the same whether the individual accounts contain funds owned as community property or as individual property of the spouses (§ 745.3(a)(1) and § 745.8(a)).

Example 2

Question: Members H and W, husband and wife, reside in a community property share. H maintains a \$100,000 account consisting of his separately owned funds and invests \$100,000 of community property funds in another account, both of which are in his name alone. What is the insurance coverage?

Answer: The two accounts are added together and insured to a total of \$100,000. \$100,000 is uninsured (§ 745.3(a)(1)).

Example 3

Question: Member A has \$92,500 invested in an individual account, and his agent, Member B, invests \$25,000 of A's funds in a properly designated agency account. B also holds a \$100,000 individual account. What is the insurance coverage?

Answer: A's individual account and the agency account are added together and insured to the \$100,000 maximum, leaving \$17,500 uninsured. The investment of funds through an agent does not result in additional insurance coverage for the principal (§ 745.3(a)(2)). B's individual account is insured separately from the agency account (§ 745.3(a)(1)). However, if the account records of the credit union do not show the agency relationship under which the funds in the \$25,000 account are held, the \$25,000 in B's name could, at the option of the NCUSIF, be added to his individual account and insured to \$100,000 in the aggregate, leaving \$25,000 uninsured (§ 745.2(c)).

Example 4

Question: Member A holds a \$100,000 individual account. Member B holds two accounts in his own name, the first containing \$25,000 and the second containing \$92,500. In processing the claims for payment of insurance on these accounts, the NCUSIF discovers that the funds in the \$25,000 account actually belong to A and that B had invested these funds as agent for A, his undisclosed principal. What is the insurance coverage?

Answer: Since the available evidence shows that A is the actual owner of the funds in the \$25,000 account, those funds would be added to the \$100,000 individual account held by A (rather than to B's \$92,500 account) and insured to the \$100,000 maximum, leaving \$25,000 uninsured. (§ 745.3(a)(2).) B's \$92,500 individual account would be separately insured.

Example 5

Question: Member C, a minor, maintains an individual account of \$750. C's grandfather makes a gift to him of \$100,000, which is invested in another account by C's father, designated on the credit union's records as custodian under a Uniform Gift to Minors Act. C's father, also a member, maintains an individual account of \$100,000. What is the insurance coverage?

Answer: C's individual account and the custodian account held for him by his father are each separately insured: the \$100,000 maximum on the custodian account, and \$750 on his individual account. The individual account held by C's father is also separately insured to the \$100,000 maximum. (§§ 745.3(a)(1) and (b).)

Example 6

Question: Member G, a court appointed guardian, invests in a properly designated account \$100,000 of funds in his custody which belong to member W, his ward. W and G each maintain \$25,000 individual accounts. What is the insurance coverage?

Answer: W's individual account and the guardianship account in G's name are each insured to \$100,000 providing W with \$125,000 in insured funds. G's individual account is also separately insured. (§§ 745.3(a)(1) and (b).)

Example 7

Question: X Credit Union acts as a service of FHA, VA, and conventional mortgage loans made to its members but sold to other parties. Each month X receives loan payments, for remittance to the other parties, from approximately 2,000 member mortgagors. The monies received each month total \$1,000,000 and are maintained in a custodial loan account. What is the insurance coverage?

Answer: X Credit Union acts as custodian for the 2,000 individual mortgagors. The interest of each mortgagor is separately insured as his individual account (but added to any other individual accounts which the mortgagor holds in the Credit Union) (§ 745.3(a)(3)).

B. How are Revocable Trust Accounts Insured?

The term "revocable trust account" includes a testamentary account, tentative or "Totten" trust account, "payable-on-death" account, or any similar account which evidences an intention that the funds shall pass on the death of the owner of the funds to a named beneficiary. If the named beneficiary is a spouse, child, grandchild, parent, brother or sister (as defined in subsection 745.4(d)) of the owner, the funds in all such accounts are insured for the owner up to \$100,000 in the aggregate as to each such beneficiary. If the beneficiary of such an account is other than the spouse, child, grandchild, parent, brother or sister of the owner, the funds in the account are, for insurance purposes, added to any other individual (single ownership) accounts of the owner and insured up to \$100,000 in the aggregate. In the case of a revocable trust account, the person who holds the power of revocation is deemed to be the owner of the funds in the account. If a revocable trust account is held in the name of a fiduciary other than the owner of the funds, any other accounts held by the fiduciary are insured separately from such revocable trust account.

Example 1

Question: Member H invests \$200,000 in a revocable trust account with his son, S, and his daughter, D, as named beneficiaries. What is the insurance coverage?

Answer: Since S and D are children of H, the owner of the account, the funds are insured up to \$100,000 as to each beneficiary (§ 745.4(b)). Assuming that S and D have equal beneficial interests (\$100,000 each), H is fully insured for this account.

Example 2

Question: Member H invests \$100,000 in each of four "payable-on-death" accounts. Under the terms of each account contract, H has the right to withdraw any or all of the funds in the account at any time. Any funds remaining in the account at the time of H's death are to be paid to a named beneficiary. The respective beneficiaries of the four

accounts are H's wife, his mother, his brother, and his nephew. H also holds an individual account containing \$100,000. What is the insurance coverage?

Answer: The accounts payable on death to H's wife, mother and brother are each separately insured to the \$100,000 maximum (Sec. 745.4(b)). The account payable to H's nephew is added to H's individual account and insured to \$100,000 in the aggregate, leaving \$100,000 uninsured (Sec. 745.4(c)).

Example 3

Question: Members H and W jointly invest in a "payable-on-death" account for the benefit of their son, S, and daughter, D. The account is held by H and W with right of survivorship. What is the maximum insurance coverage available on the account?

Answer: Since S and D are the children of H and W, the account will be insured up to \$100,000 as to each beneficiary separately from any accounts of the owners, H and W (§ 745.4(b)). H would be entitled to \$100,000 insurance for S and \$100,000 for D. W would be entitled to the same coverage for a total of \$400,000 on the account. However, upon the death of either H or W, insurance coverage would be reduced to \$200,000.

Example 4

Question: Member H invests \$200,000 in a revocable trust account held in connection with a living trust account held in connection with a living trust with his son, S and his daughter, D, as named beneficiaries. What is the insurance coverage?

Answer: Since S and D are children of H, the owner of the account, the funds would normally be insured under rules governing revocable trust accounts up to \$100,000 as to each beneficiary (§745.4(b)). However, because this account is held in connection with a living trust whose named beneficiaries are qualifying beneficiaries under §745.4, it must be scrutinized to determine whether the account complies with all other provisions of this part and whether the living trust contains any defeating contingencies. Assuming there are no defeating contingencies and that the account complies with all other requirements of this part, then it will be treated as any other revocable trust. In this instance, it will be insured up to \$100,000 as to each beneficiary (§745.4(e)). Assuming that S and D have equal beneficial interest (\$100,000 each), H is fully insured for this account.

C. How are Accounts Held by Executors or Administrators Insured?

All funds belonging to a decedent and invested in one or more accounts, whether held in the name of the decedent or in the name of his executor or administrator, are added together and insured to the \$100,000 maximum. Such funds are insured separately from the individual accounts of any of the beneficiaries of the estate or of the executor or administrator.

Example 1

Question: Member A, administrator of Member D's estate, sells D's automobile and invests the proceeds of \$12,500 in an account entitled "A Administrator of the estate of D." A has an individual account in that same credit union containing \$100,000. Prior to

his death, D had opened an individual account of \$100,000. What is the insurance coverage?

Answer: The \$12,500 is added to D's individual account and insured to \$100,000, leaving \$12,500 uninsured. A's individual account is separately insured for \$100,000 (§ 745.5).

D. How are Accounts Held by a Corporation, Partnership or Unincorporated Association Insured?

All funds invested in an account or accounts by a corporation, a partnership or an unincorporated association engaged in any independent activity are added together and insured to the \$100,000 maximum. The term "independent activity" means any activity other than the one directed solely at increasing coverage. If the corporation, partnership or unincorporated association is not engaged in an independent activity, any account held by the entity is insured as if owned by the persons owning or comprising the entity, and the imputed interest of each such person is added for insurance purposes to any individual account which he maintains.

Example 1

Question: Member X Corporation maintains a \$100,000 account. The stock of the corporation is owned by members A, B, C, and D in equal shares. Each of these stockholders also maintains an individual account of \$100,000 with the same credit union. What is the insurance coverage?

Answer: Each of the five accounts would be separately insured to \$100,000 if the corporation is engaged in an independent activity and has not been established merely for the purpose of increasing insurance coverage. The same would be true if the business were operated as a bona fide partnership instead of as a corporation (§ 745.6). However, if X corporation was not engaged in an independent activity, then \$25,000 (1/4 interest) would be added to each account of A, B, C, and D. The accounts of A, B, C, and D would then each be insured to \$100,000, leaving \$25,000 in each account uninsured.

Example 2

Question: Member C College maintains three separate accounts with the same credit union under the titles: "General Operating Fund," "Teachers Salaries," and "Building Fund." What is the insurance coverage?

Answer: Since all of the funds are the property of the college, the three accounts are added together and insured only to the \$100,000 maximum (§ 745.6).

Example 3

Question: The men's club of X Church carries on various social activities in addition to holding several fundraising campaigns for the church each year. The club is supported by membership dues. Both the club and X Church maintain member accounts in the same credit union. What is the insurance coverage?

Answer: The men's club is an unincorporated association engaged in an independent activity. If the club funds are, in fact, legally owned by the club itself and not the church, each account is separately insured to the \$100,000 maximum (§ 745.6).

Example 4

Question: The PQR Union, a member of the ABC Federal Credit Union, has three locals in a certain city. Each of the locals maintains an account containing funds belonging to the parent organization. All three accounts are in the same insured credit union. What is the insurance coverage?

Answer: The three accounts are added together and insured up to the \$100,000 maximum (§ 745.6).

E. How are Public Unit Accounts Insured?

For insurance purposes, the official custodian of funds belonging to a public unit, rather than the public unit itself, is insured as the accountholder. All funds belonging to a public unit and invested by the same custodian in a federally-insured credit union are categorized as either share draft accounts or share certificate and regular share accounts. If these accounts are invested in a federally-insured credit union located in the jurisdiction from which the official custodian derives his authority, then the share draft accounts will be insured separately from the share certificate and regular share accounts. Under this circumstance, all share draft accounts are added together and insured to the \$100,000 maximum and all share certificate and regular share accounts are also added together and separately insured up to the \$100,000 maximum. If, however, these accounts are invested in a federally-insured credit union located outside of the jurisdiction from which the official custodian derives his authority, then insurance coverage is limited to \$100,000 for all accounts regardless of whether they are share draft, share certificate or regular share accounts. If there is more than one official custodian for the same public unit, the funds invested by each custodian are separately insured. If the same person is custodian of funds for more than one public unit, he is separately insured with respect to the funds of each unit held by him in properly designated accounts.

For insurance purposes, a "political subdivision" is entitled to the same insurance coverage as any other public units. "Political subdivision" includes any subdivision of a public unit or any principal department of such unit (1) the creation of which has been expressly authorized by state statute, (2) to which some functions of government have been allocated by state statute, and (3) to which funds have been allocated by statute or ordinance for its exclusive use and control.

Example 1

Question: As Comptroller of Y Consolidated School District, A maintains a \$125,000 account in the credit union containing school district funds. He also maintains his own \$100,000 member account in the same credit union. What is the insurance coverage?

Answer: The two accounts will be separately insured, assuming the credit union's records indicate that the account containing the school district funds is held by A in a fiduciary capacity. Thus, \$100,000 of the school's funds and the entire \$100,000 in A's personal account will be insured (§§ 745.10(a)(2) and 745.3).

Example 2

Question: A, as city treasurer, and B, as chief of the city police department, each have \$100,000 in city funds invested in custodial accounts. What is the insurance coverage?

Answer: Assuming that both A and B have official custody of the city funds, each account is separately insured to the \$100,000 maximum (§ 745.10(a)(2)).

Example 3

Question: A is Treasurer of X County and collects certain tax assessments, a portion of which must be paid to the state under statutory requirement. A maintains an account for general funds which belong to the State Treasurer. The credit union's records indicate that the separate account contains funds held for the State. What is the insurance coverage?

Answer: Since two public units own the funds held by A, the accounts would each be separately insured to the \$100,000 maximum (§ 745.10(a)(2)).

Example 4

Question: A city treasurer invests city funds in each of the following accounts: "General Operating Account," "School Transportation Fund," "Local Maintenance Fund," and "Payroll Fund." Each account is available to the custodian by demand. By administrative direction the city treasurer has allocated the funds for the use of and control by separate departments of the city. What is the insurance coverage?

Answer: All of the accounts are added together and insured in the aggregate to \$100,000. Because the allocation of the city's funds is not by statute or ordinance for the specific use of and control by separate departments of the city, separate insurance coverage to the maximum of \$100,000 is not afforded to each account (§§ 745.1(d) and 745.10(a)(2)).

Example 5

Question: A, the custodian of retirement funds of a military exchange, invests \$1,000,000 in an insured credit union. The military exchange, a non-appropriated fund instrumentally of the United States, is deemed to be a public unit. The employees of the exchange are the beneficiaries of the retirement funds but are not members of the credit union. What is the insurance coverage?

Answer: Because A invested the funds on behalf of a public unit, in his capacity as custodian, those funds qualify for \$100,000 share insurance even though A and the public unit are not within the credit union's field of membership. Since the beneficiaries are neither public units nor members of the credit union they are not entitled to separate share insurance. Therefore, \$900,000 is uninsured (§ 745.10(a)(1)).

Example 6

Question: A is the custodian of the County's employee retirement funds. He deposits \$1,000,000 in retirement funds with the credit union. The "beneficiaries" of the retirement fund are not themselves public units nor are they within the credit union's field of membership. What is the insurance coverage?

Answer: Because A invested the funds on behalf of a public unit, in his capacity as custodian, those funds qualify for \$100,000 share insurance even though A and the public unit are not within the credit union's field of membership. Since the beneficiaries are neither public units nor members of the credit union they are not entitled to separate share insurance. Therefore, \$900,000 is uninsured (§ 745.10(a)(2)).

Example 7

Question: A county treasurer establishes the following share draft accounts in an insured credit union with \$100,000:

- “General Operating Fund”
- “County Roads Department Fund”
- “County Water District Fund”
- “County Public Improvement District Fund”
- “County Emergency Fund”

What is the insurance coverage?

Answer: The “County Roads Department,” “County Water District” and “County Public Improvement District” accounts would each be separately insured to \$100,000 if the funds in each such account have been allocated by law for the exclusive use of a separate county department or subdivision expressly authorized by State statute. Funds in the “General Operating” and “Emergency Fund” accounts would be added together and insured in the aggregate to \$100,000, if such funds are for countywide use and not for the exclusive use of any subdivision or principal department of the county, expressly authorized by State statute (§§ 745.1(d) and 745.10(a)(2)).

Example 8

Question: A, the custodian of Indian tribal funds, lawfully invests \$1,000,000 in an account in an insured credit union on behalf of 15 different tribes; the records of the credit union show that no tribe's interest exceeds \$100,000. A, as official custodian, also invests \$1,000,000 in the same credit union on behalf of 100 individual Indians, who are not members; each Indian's interest is \$10,000. What is the insurance coverage?

Answer: Because each tribe is considered a separate public unit, the custodian of each tribe, even though the same person, is entitled to separate insurance for each tribe (§ 745.10(a)(5)). Since the credit union's records indicate no tribe has more than \$100,000 in the account, the \$1,000,000 would be fully insured as 15 separate tribal accounts. If any one tribe had more than a \$100,000 interest in the funds, it would be insured only to \$100,000 and any excess would be uninsured. However, the \$1,000,000 invested on behalf of the individual Indians would not be insured since the individual Indians are neither public units nor, in the example, members of the credit union. If A is the custodian of the funds in his capacity as an official of a governmental body that qualified as a public unit, then the account would be insured for \$100,000 leaving \$900,000 uninsured.

Example 9

Question: A, an official custodian of funds of a state of the United States, lawfully invests \$250,000 of state funds in a federally-insured credit union located in the state

from which he derives his authority as an official custodian. What is the insurance coverage?

Answer: If A invested the entire \$250,000 in a share draft account, then \$100,000 would be insured and \$150,000 would be uninsured. If A invested \$125,000 in share draft accounts and another \$125,000 in share certificate and regular share accounts, then A would be insured for \$100,000 for the share draft accounts and \$100,000 for the share certificate and regular share accounts leaving \$50,000 uninsured (§745.10(a)(2)). If A had invested the \$250,000 in a federally insured credit union located outside the state from which he derives his authority as an official custodian, then \$100,000 would be insured for all accounts regardless of whether they were share draft, share certificate or regular share accounts, leaving \$150,000 uninsured (§745.10(b)).

F. How are Joint Accounts Insured?

The interest of a co-owner in all accounts held under any form of joint ownership valid under state law (whether as joint tenants with right of survivorship, tenants by the entireties, tenants in common, or by husband and wife as community property) is insured up to \$100,000. This insurance is separate from that afforded individual accounts held by any of the co-owners.

An account is insured as a joint account only if each of the co-owners has personally signed a membership card or an account signature card and possesses the same withdrawal rights as the other co-owners. (The signature requirement does not apply to share certificates, or to any accounts maintained by an agent, nominee, guardian, custodian or conservator on behalf of two or more persons. However, the records of the credit union must show that the account is being maintained for joint owners. There is also another exception in the case of a minor discussed below.) An account owned jointly which does not qualify as a joint account for insurance purposes is insured as if owned by the named persons as individuals. In that case, the actual ownership interest in the account of each person is added to any other accounts individually owned by such person and insured up to \$100,000 in the aggregate.

Any individual, including a minor, may be a co-owner of a joint account. Although, generally, each co-owner must have signed an account signature card and must have the same rights of withdrawal as other co-owners in order for the account to qualify for separate joint account insurance, there is an exception for minors. If state law limits or restricts a minor's withdrawal rights—for example, a minimum age requirement to make a withdrawal—the account will still be insured as a joint account.

The interests of a co-owner in all joint accounts that qualify for separate insurance coverage are insured up to the \$100,000 maximum. For insurance purposes, the co-owners of any joint account are deemed to have equal interests in the account, except in the case of a tenancy in common. With a tenancy in common, equal interests are presumed unless otherwise stated on the records of the credit union.

Example 1

Question: Members A and B maintain an account as joint tenants with right of survivorship and, in addition, each holds an individual account. Is each account separately insured?

Answer: If both A and B have signed the membership or signature card and possess equal withdrawal rights with respect to the joint funds, their interests in the joint account

are separately insured from their interests in the individual accounts. (§ 745.8 (a) and (b).) If the joint account is represented by a share certificate, their individual signatures are not required for that account.

Example 2

Question: Members H and W, husband and wife, reside in a community property state. Each holds an individual account and, in addition, they hold a qualifying joint account. The funds in all three accounts consist of community property. Is each account separately insured?

Answer: Yes. An account in the individual name of a spouse will be insured up to \$100,000 whether the funds consist of community property or separate property of the spouse. A joint account containing community property is separately insured. Thus, community property can be used for individual accounts in the name of each spouse and for a joint account in the name of both spouses. In this example, each individual account is insured up to \$100,000 (§ 745.3(a)(1)), and the interests of both the husband and wife in the joint account are each insured up to \$100,000 (§ 745.8(a)).

Example 3

Question: Two accounts of \$100,000 each are held by a member husband and his wife under the following names: John Doe and Mary Doe, husband and wife, as joint tenants with right of survivorship. Mrs. John Doe and John Q. Doe (community property). How much insurance do the husband and wife have?

Answer: They have \$200,000 of insurance. Both the husband and wife are deemed to have a one half interest (\$50,000) in each account. (§ 745.2(c)(4).) The husband's interest in both accounts would be added together and insured for \$100,000. The wife's insurance coverage would be determined the same way. (§ 745.8(a).)

Example 4

Question: The following accounts are held by members A, B and C, each of whom has personally executed signature cards for the accounts in which he has an interest. Each co-owner of a joint account possesses the necessary withdrawals rights. 1. A, as an individual—\$100,000. 2. B, as an individual—\$100,000. 3. C, as an individual—\$100,000. 4. A and B, as joint tenants w/r/o survivorship—\$ 90,000. 5. A and C, as joint tenants w/r/o survivorship—\$ 90,000. 6. B and C, as joint tenants w/r/o survivorship—\$ 90,000. 7. A, B and C, as joint tenants w/r/o survivorship—\$90,000. What is the insurance coverage?

Answer: Accounts numbered 1, 2 and 3 are each separately insured for \$100,000 as individual accounts held by A, B and C, respectively (§ 745.3(a)(1)). The interest of the co-owners of each joint account are deemed equal for insurance purposes (§ 745.2(c)(4)). A's interest in accounts numbered 4, 5, and 7 are added together for insurance purposes (§ 745.8(e)). Thus, A has an interest of \$45,000 in account No. 4, \$45,000 in account No. 5 and \$30,000 in account No. 7, for a total joint account interest of \$120,000, of which \$100,000 is insured. The interest of B and C are similarly insured.

Example 5(a)

Question: A, B and C hold accounts as set forth in Example 4. Members A and B are husband and wife; C, their minor child, has failed to sign the signature card for Account No. 7. In Account No. 5, according to the terms of the account, C cannot make a withdrawal without A's written consent. (This is not a limitation imposed under state law.) In Account No. 6, the signatures of both B and C are required for withdrawal. A has provided all of the funds for Accounts numbered 5 and 7 and under state law has the entire actual ownership interest in these two accounts. What is the insurance coverage?

Answer: If any of the co-owners of a joint account have failed to meet any of the joint account requirements, the account is not a qualifying joint account. Instead, the account is treated as if it consisted of commingled individual accounts of each of the co-owners in accordance with his or her actual ownership interest in the funds, as determined under applicable state law. (§ 745.8(c).) Account No. 5 is not a qualifying joint account because C does not have equal withdrawal rights with A. Based on the terms of the account, C can only make a withdrawal if he has A's written consent. Account No. 7 is not a qualifying joint account because C did not personally sign the signature card. Therefore, all of the funds in Accounts 5 and 7 are treated as individually owned by A and added to A's individual account, Account No. 1. For insurance purposes then, A has \$280,000 in one individual account that is insured for \$100,000, leaving \$180,000 uninsured. Account 6 is a qualifying joint account for insurance purposes since each co-owner has the right to withdraw funds on the same basis. Account 4 is also a qualifying joint account. A's interest in Account 4 is insured for \$45,000. B's interest of \$45,000 in Account 4 is added to her interest of \$45,000 in Account 6 and insured for \$90,000. C's interest in Account 6 is insured for \$45,000.

Example 5(b)

Question: Assume the same accounts as Example 5(a) except that, on Account No. 5, C's right to make a withdrawal is limited by state law which precludes a minor from making a withdrawal without the co-owner's written consent. What is the insurance coverage?

Answer: In this situation, Accounts 4, 5, and 6 all qualify as joint accounts. A, B, and C will each have \$90,000 of insured funds based on: A's interest in Account 4 (\$45,000) and 5 (\$45,000), B's interest in Accounts 4 (\$45,000) and 6 (\$45,000), and C's interest in Accounts 5 (\$45,000) and 6 (\$45,000). As in Example 5(a), Account No. 7 does not qualify as a joint account and would be added to A's individual account for insurance purposes.

G. How are Trust Accounts and Retirement Accounts Insured?

A trust estate is the interest of a beneficiary in an irrevocable express trust, whether created by trust instrument or statute, that is valid under state law. Thus, funds invested in an account by a trustee under an irrevocable express trust are insured on the basis of the beneficial interests under such trust. The interest of each beneficiary in an account (or accounts) established under such a trust arrangement is insured to \$100,000 separately from other accounts held by the trustee, the settlor (grantor), or the beneficiary. However, in cases where a beneficiary has an interest in more than one trust arrangement created by the same settlor, the interests of the beneficiary in all

accounts established under such trusts are added together for insurance purposes, and the beneficiary's aggregate interest derived from the same settlor is separately insured to the \$100,000 maximum.

A beneficiary's interest in an account established pursuant to an irrevocable express trust arrangement is insured separately from other beneficial interests (trust estates) invested in the same account if the value of the beneficiary's interest (trust estate) can be determined (as of the date of a credit union's insolvency) without evaluation of contingencies except for those covered by the present worth tables and rules of calculation for their use set forth in § 20.2031-10 of the Federal Estate Tax Regulations (26 C.F.R. 20-2031-10). If any trust estates in such an account cannot be so determined, the insurance with respect to all such trust estates together shall not exceed the basic insured amount of \$100,000.

In order for insurance coverage of trust accounts to be effective in accordance with the foregoing rules, certain record-keeping requirements must be met. In connection with each trust account, the credit union's records must indicate the name of both the settlor and the trustee of the trust and must contain an account signature card executed by the trustee indicating the fiduciary capacity of the trustee. In addition, the interests of the beneficiaries under the trust must be ascertainable from the records of either the credit union or the trustee, and the settlor or beneficiary must be a member of the credit union. If there are two or more settlors or beneficiaries, then either all the settlors or all the beneficiaries must be members of the credit union.

Although each ascertainable trust estate is separately insured, it should be noted that in short-term trusts the insurable interest or interests may be very small, since the interests are computed only for the duration of the trust. Thus, if a trust is made irrevocable for a specified period of time, the beneficial interest will be calculated in terms of the length of time stated. A reversionary interest retained by the settlor is treated in the same manner as an individual account of the settlor.

As stated, the trust must be valid under local law. A trust which does not meet local requirements, such as one imposing no duties on the trustee or conveying no interest to the beneficiary, is of no effect for insurance purposes. An account in which such funds are invested is considered to be an individual account.

An account established pursuant to a revocable trust arrangement is insured as a form of individual account and is treated under Section B, *supra*, dealing with Testamentary Accounts.

IRA and Keogh accounts are separately insured, each up to \$100,000. Although credit unions may serve as trustees or custodians for self-directed IRA, Roth IRA and Keogh accounts, once the funds in those accounts are taken out of the credit union, they are no longer insured.

In the case of an employee retirement fund where only a portion of the fund is placed in a credit union account, the amount of insurance available to an individual member/beneficiary on his interest in the account will be in proportion to his interest in the entire employee retirement fund. If, for example, the member's interest represents 10% of the entire plan funds, then he is presumed to have only a 10% interest in the plan account. Said another way, if a member has a vested interest of \$10,000 in a municipal employees retirement plan and the trustee invests 25% of the total plan funds in a credit union, the member would be insured for only \$2,500 on that credit union

account. There is an exception, however. The member would be insured for \$10,000 if the trustee can document, through records maintained in the ordinary course of business, that individual beneficiary's interests are segregated and the total vested interest of the member was, in fact, invested in that account.

Example 1

Question: Member S invests \$45,000 in trust for B, the beneficiary. S also has an individual account containing \$90,000 in the same credit union. What is the insurance coverage?

Answer: Both accounts are fully insured. The trust account is separately insured from the individual account of S (§§ 745.3(a)(1) and 745.9–1).

Example 2

Question: S invests funds in trust for A, B, C, D, and E. A, B, and C are members of the credit union, D, E, and S are not. What is the insurance coverage?

Answer: This is an uninsurable account. Where there is more than one settlor or more than one beneficiary, all the settlors or all the beneficiaries must be members to establish this type of account. Since D, E and S are not members, this account cannot legally be established or insured.

Example 3

Question: Member S invests \$500,000 in trust for ABC Employees Retirement Fund. Some of the beneficiaries are members and some are not. What is the insurance coverage?

Answer: The account is insured as to the determinable interests of each member beneficiary to a maximum of \$100,000 per member. Member interests not capable of evaluation and non-member interests shall be added together and insured to a maximum of \$100,000 in the aggregate (§ 745.9– 1).

Example 3(a)

Question: Member S is trustee for the ABC Employees Retirement Fund containing \$1,000,000. Member A has a determinable interest of \$90,000 in the Fund (9% of the total). S invests \$500,000 of the Fund in trust in an insured credit union and the remaining \$500,000 elsewhere. Some of the beneficiaries of the Fund are members of the credit union and some are not. S does not segregate each employee's interest in the Fund. What is the insurance coverage?

Answer: The account is insured as to determinable interest of each member beneficiary, adjusted in proportion to the Fund's investment in the credit union. A's insured interest in the account is \$45,000, or 9% of \$500,000. This reflects the fact that only 50% of the Fund is in the account and A's interest in the account is in the same proportion as his interest in the overall plan. Each beneficiary who is a member would be similarly insured. Members' interests not capable of evaluation and non-members' interests are added together and insured to a maximum of \$100,000 in the aggregate (§ 745.9–1).

Example 4

Question: Member A has an individual account of \$100,000 and establishes an IRA and accumulates \$50,000 in that account. Subsequently A becomes self-employed and establishes a Keogh account in the same credit union and accumulates \$100,000 in that account. What is the insurance coverage?

Answer: Each of A's accounts would be separately insured for up to \$100,000. In the example, A would be fully insured for \$250,000 (§§ 745.3(a)(1) and 745.9–2).

Example 5

Question: Member A has a self-directed IRA account with \$70,000 in it. The FCU is the trustee of the account. Member transfers \$40,000 into a blue chip stock; \$30,000 remains in the FCU. What is the insurance coverage?

Answer: Originally, the full \$70,000 in A's IRA account is insured. The \$40,000 is no longer insured once it is moved out of the FCU. The \$30,000 remaining in the FCU is insured (§ 745.9–2).

Subpart B—Payment of Share Insurance and Appeals

§ 745.200 General.

- (a) Payment. In the event of the liquidation of an insured credit union, the Board will promptly determine the insured accountholders thereof and the amount of the insured account or accounts of each such accountholder. Payment may be in cash, or its equivalent, or may be made by making available to each accountholder a transferred account in a new federally insured credit union in the same community or in another federally insured credit union or institution in an amount equal to the accountholder's insured account. Notwithstanding the foregoing, the Board may withhold payment of such portion of the insured account of any member as may be required to provide for payment of any direct or indirect liability to the closed credit union or the liquidating agent, which is not offset against a claim due from such credit union, pending the determination and payment of such liability by the member or any person liable therefor.
- (b) Amount of insurance. The amount of insurance on an insured account shall be determined in accordance with the provisions of Subpart A of this part and the Federal Credit Union Act. For the purpose of determining insurance coverage, dividends earned in the ordinary course of business and posted to share accounts for any prior accounting or dividend period shall be deemed to be principal under this part. Dividends earned or accrued in the ordinary course of business, but not posted to share accounts, may be paid at the discretion of the liquidating agent. In making such determination, the liquidating agent will take into consideration whether the failure to post dividends earned or accrued was due to the fraud, embezzlement or accounting errors of credit union personnel. The liquidating agent may require an accountholder to submit documentation supporting any claim for unposted dividends not otherwise evidenced in the credit union records. However, in no event will dividend amounts be considered as principal for insurance purposes pursuant to this section if not consistent with the amounts paid on similar classes of shares.
- (c) Multiple accounts. In the event an insured member holds more than one insured account in the same capacity, and the aggregate amount of such accounts

(including share draft accounts held in such capacity) exceeds the amount of insurance afforded thereon, the insurance coverage will be prorated among the member's interest in all accounts held in the same capacity. In the case of individual accounts, the insurance proceeds shall be paid to the holder of the account, whether or not the holder is the beneficial owner. In the case of accounts which are owned jointly, the insurance proceeds shall be paid to the owners jointly. In the case of trust estates, the insurance proceeds shall be paid to the indicated trustee unless otherwise provided for in the trust instrument or under state law. In the case of corporations, partnerships and unincorporated associations engaged in an independent activity, the insurance proceeds shall be paid to the indicated holder of the account. Where insurance payment is in the form of a transferred account to another insured institution, the same rules shall be applied.

- (d) Computing time. In computing any period of time prescribed by this subpart, the provisions of § 747.12(a) shall apply.

§ 745.201 Processing of Insurance Claims.

- (a) Delegations of authority. The Agent for the Liquidating Agent ("Liquidating Agent") or his or her designee is authorized to make initial determinations with respect to insurance claims pursuant to the principles set forth in this Part, and to act on requests for reconsideration of the initial determination.
- (b) Initial determination. In the event the Liquidating Agent determines that all or a portion of an accountholder's account is uninsured, the Liquidating Agent shall so notify the accountholder in writing, stating the reason(s) for such initial determination, and shall provide the accountholder with a certificate of claim in liquidation in the amount of the uninsured account from the Board in its capacity as Liquidating Agent for the insured credit union to enable the accountholder to share in the proceeds of the liquidation of the credit union, if any, up to the amount of the uninsured account.
- (c) Request for Reconsideration. An accountholder may, at his or her option, request reconsideration from the Liquidating Agent of the initial determination within 30 days of the date of the initial determination, or directly appeal the initial determination to the Board pursuant to § 745.202 of this subpart. The Liquidating Agent shall act on the request for reconsideration within 30 days from its receipt.

§ 745.202 Appeal.

- (a) Time for filing. Within 60 days after issuance of an initial determination, or of the determination on a request for reconsideration by the liquidating agent, the accountholder may appeal by filing with the Board a written request for appeal. The appeal may be filed with the Secretary of the Board, National Credit Union Administration, 1775 Duke Street, Alexandria, VA 22314-3428.
- (b) Content of request. Any appeal must include:
- (1) a statement of the facts on which the claim for insurance is based;
 - (2) a statement of the basis for the initial determination or determination on the request for reconsideration to which the accountholder objects and the alleged error in such determination, including citations to applicable statutes and regulations;

- (3) any other evidence relied upon by the accountholder which was not previously provided to the Liquidating Agent.
- (c) Procedures for review of request.
 - (1) Within 60 days of the date of the Board's receipt of an appeal, the Board may request in writing that the accountholder submit additional facts and records in support of its request. The accountholder shall have 45 days from the date of issuance of such written request to provide such additional information. Failure by the accountholder to provide additional information may, as determined solely by the Board, result in denial of the accountholder's appeal.
 - (2) Within 60 days from the date of the Board's receipt of an appeal, the accountholder may amend or supplement the request in writing. In the event that the accountholder does amend or supplement the request, the provisions of paragraph (c)(1) of this section with respect to requests for additional information and responses to such requests shall apply with equal force to any such amendment or supplement to a request.
- (d) Determination on appeal.
 - (1) Within 180 days from the date of the receipt of an appeal by the Board, the Board shall issue a decision determining the extent of the accountholder's insurance pursuant to the rules of this Part.
 - (2) The determination by the Board on appeal shall be provided to the accountholder in writing, stating the reason(s) for the determination, and shall constitute a final Agency order regarding the accountholder's claim for insurance.
 - (3) If the Board determines that the accountholder is entitled to the amount of insurance claimed or portion thereof, upon payment of such insurance the accountholder shall promptly surrender to the Board the certificate of claim in liquidation provided in connection with the initial determination. In the event that the Board determines that the accountholder is only entitled to a portion of the amount of insurance claimed, upon the accountholder's surrender of such certificate a new certificate of claim in liquidation will be provided which reflects the revised amount of the uninsured account.
 - (4) Failure by the Board to issue a determination on appeal of the accountholder's claim for insurance within the 180day period provided for under this paragraph (d)(1) shall be deemed to be a denial of such claim for purposes of Section 745.203 of this subpart.

§ 745.203 Judicial Review.

- (a) For purposes of seeking judicial review of actions taken pursuant to this subpart, only a determination on appeal issued by the Board pursuant to Section 745.202 of this subpart shall constitute a final determination regarding an accountholder's claim for insurance.
- (b) Failure to file an appeal with regard to an initial determination, or a decision rendered on a request for reconsideration within the applicable time periods shall constitute a failure by the accountholder to exhaust available administrative remedies and, due to such failure, any objections to the initial determination or request for reconsideration shall be deemed to be waived and such

determination shall be deemed to have been accepted by, and binding upon, the accountholder.

- (c) Final determination by the Board is revisable in accordance with the provisions of Chapter 7, Title 5, United States Code, by the United States Court of Appeals for the District of Columbia or the court of appeals for the Federal judicial circuit where the credit union's principal place of business is located. Such action must be filed not later than 60 days after such final determination is ordered.
